Debian Jabber/XMPP Accounts

Did you know,

that all Debian developers can have a Jabber address (JID) identical to their email address?

E.g. my email is `mailto:debacle@debian.org` and my Jabber id is `xmpp:debacle@debian.org`.

Just set your RTC password in Debian LDAP (<https://db.debian.org/>)

Now you know

For everyone else,

check JoinJabber

(<https://joinjabber.org/docs/servers/>) and XMPP Providers (<https://providers.xmpp.net/>) or self-host Prosody or Ejabberd
